Experience

Software Engineer
TechstyleOS
since september 2022
Remote developing job with an US comapny with amazing engineers using NestJs, but also monorepo architecture, jenkins, docker, and way too many things to put here, definately learning a lot!.

Fullstack Engineer
Citdev
july 2019 - september 2021
Remote web developing job with amazing people using mostly Laravel, angular and Vue.js, (although with some server maintenance and various managing software on the side).

Fullstack Engineer
Garantia
March 2019 - July 2019
Fullstack Engineer mostly using Code igniter, angular, hyper and a lot of windows server and linux server management, also managing SQL databases and webhosting with IONOS.

Education

Bachelor's in Computer engineering
March 2015 - December 2020
CUCEI basics of programming here, with some great teachers and some amazing friends! Centro universitario de ciencias exactas e ingenierias.

Preparatoria
2015
Bachillerato general por competencias.

Projects

Ayudate
Angular
🚀 finance and loaning company built alongside the ayudate team.

Contributions

Regression bioinformatics solubility
🚀 predicting protein solubility from DNA sequence.
